

Campbell Street Primary School Association Community Directory 2018

CSPSA has produced a School based Community Directory, to assist members of our community in choosing services that are provided by other direct members of our community. The Directory will be available to download on the School's website and will be promoted via the Association's Facebook pages and the App.

Listings will not be updated automatically each year. CSPSA takes care with data entry but no responsibility for any incorrect information that is published, and reserves the right not to include a business for any reason.
